| <p>Slide 3</p> |  | <p>First, in this section of the course, we will look at the basic process to start using COMSUITE services, from submitting forms to MUFG for first-time login using Physical OTP Token.</p> |
| <p>Slide 4</p> |  | <p><Basic Process></p> <p>As a basic process for using COMSUITE services for the first time, after signing basic agreement and related consents, customer (your company, hereinafter refer to as “customer”) will be asked to send application forms to MUFG.</p> <p>Customer will receive the Envelope from MUFG which includes a Notice of Start of Service, Application for OTP Token Activation and the OTP Token (device).</p> <p>Next, customer will send back the OTP Token Activation Form to MUFG, based on which the bank will activate customer’s OTP Token.</p> <p>Then, customer will be able to proceed to login to COMSUITE Portal.</p> <p>We will explain in more details in the next few slides.</p> |

| | | |
|----------------|--|---|
| <p>Slide 5</p> | | <p><What is in the Envelope></p> <p>After sending application forms to MUFG, you will receive an Envelope that contains Notice of Start of Service and the Authentication Device package. Notice of Start of Service contains the important information including the contents of this package, related service information and etc.</p> <p>Enclosed in the Authentication Device package are Application for OTP Token Activation (“Activation Form”) and the OTP Token Envelope.</p> |
| <p>Slide 6</p> | | <p><What is in the OTP Token Envelope></p> <p>In the OTP Token Envelope, you will find the OTP Token device, and a COMSUITE Letter that has your Customer ID and User ID. Note that OTP Token device from the Envelope is not activated. Go to next slides for OTP Token Activation.</p> |
| <p>Slide 7</p> | | <p><Apply for OTP Token Activation></p> <p>Each OTP Token device sent from MUFG is inactive at the time of issuance and it needs to be activated on COMSUITE Portal before you can use it.</p> <p>Activation can be conducted by customer, except for the following cases:</p> <ul style="list-style-type: none"> it is the first time your company receives the OTP Token device and tries to login to COMSUITE Portal (Note: in case of user addition, please conduct activation from customer side) there are no active users at the moment to perform OTP Token Activation on customer's side <p>In the described cases, you can request MUFG (contracting office) to activate for you instead.</p> <p>In order for MUFG to activate your OTP Token device, please fill in the enclosed Activation Form and return it to the bank via mail or Email.</p> |

| | | |
|-----------------|---|--|
| <p>Slide 8</p> |  | <p><Conduct OTP Token Activation by Customer></p> <p>There is no need to submit/return the Activation Form. In case you already have an activated OTP Token device, when you receive another device, it is recommended that you activate the device on your side, which does not require submission of Activation Form to MUFG.</p> <p>Simply login to COMSUITE Portal and access Administration > User Profile > OTP Token Activation or directly from To Do.</p> <p>First, apply OTP Token Activation. This can be conducted by any User or Administrator.</p> <p>Second, approve OTP Token Activation. This can be conducted by Administrator from the same menu or directly from To Do.</p> |
| <p>Slide 9</p> |  | <p><Activation and Notification></p> <p>For first-time COMSUITE customer (company), activation will be conducted by MUFG.</p> <p>When the OTP Token activation is completed by MUFG (or by customer, if conducted on customer side), an automated e-mail will be sent to the user's registered email address, requesting the user to register a password of user's own choice and log in to COMSUITE Portal using the OTP Token device.</p> |
| <p>Slide 10</p> |  | <p>In this section of the course, we will look at the basic process to start using COMSUITE services, from submitting forms to MUFG for first-time login using Mobile OTP Token.</p> |

Slide 11

<Basic Process>

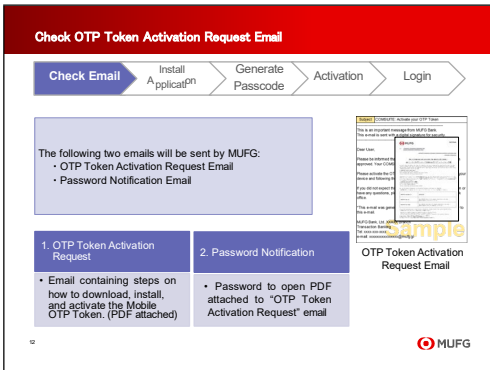

As a basic process for using COMSUITE services for the first time, after signing basic agreement and related consents, customer (your company, hereinafter refer to as “customer”) will be asked to send application forms to MUFG.

For customer users who opted to use Mobile OTP Token as token type, they will individually receive an OTP token activation request email.

After receiving the email, application must be installed to mobile device and activated in order to be able to proceed to login to COMSUITE Portal.

We will explain in more details in the next few slides.

Slide 12

<What is the contents of the OTP Token Activation Request Email?>

The following two emails will be sent by MUFG:

- OTP Token Activation Request Email
- Password Notification Email

In the OTP Token Activation Request Email, a PDF containing instructions on how to download, install, and activate the Mobile OTP Token is attached. Please follow the instructions in the attached PDF.

This PDF which also contains customer information e.g. COMSUITE Customer ID is password protected. Enter the password written in the separate Password Notification email to open the PDF.

Slide 13

<Install Application>

Download and Install the Mobile OTP Token application to your smartphone from the official Google Play and Apple App Store. For security reasons, do not download from other unofficial sites/stores.

Official application store can be accessed the following ways:

- If you are viewing this guide from smartphone, click on the store badge (“GET IT ON Google Play”, or “Download on the AppStore”)
- If you are viewing this guide from PC, you can read the QR code shown using your smartphone
- Alternatively, you can also search for the application name “COMSUITE OTP Token” on Google Play or App Store.

Slide 14

<Generate the Passcode for Activation>

Enter the following information and click “Next”

- Customer ID (Written in the PDF attached in the OTP Token Activation Request Email)
- User ID (Can be checked from the COMSUITE Application Form submitted to bank)

* In case you forgot your User ID and cannot find the application form, please contact your servicing MUFG Bank office.

Slide 15

Initial Activation (Authentication)

Check Email → Install Application → Generate Passcode → **Activation** → Login

Both SMS and Email containing activation passcode will be sent by bank. Enter the following information and tap "Next".

- Passcode (from SMS) (sent by bank to customer via SMS)
- Passcode (from e-mail) (sent by bank to customer via email)
- COMSUITE User Name (can be checked from the COMSUITE application form)

MUFG Your passcode for initial activation is **COMSUITE**. Valid for 10 minutes after request from server. Please use for other purpose or share to anyone.

SMS

Email

COMSUITE Application Form

In case you forgot your User ID and cannot find the application form, please contact your servicing MUFG Bank office.

After waiting for a few minutes, if you have not received the SMS or the Email, please check if the mobile number and the email address written in the submitted application form are correct. In case information is correct and you still cannot receive the email or the SMS, please contact your servicing MUFG Bank office.

<Initial Activation (Authentication)>

Both SMS and Email containing activation passcode will be sent by bank. Enter the following information and press "Next".

- Passcode (from SMS) (sent by bank to customer via SMS)
- Passcode (from e-mail) (sent by bank to customer via email)
- COMSUITE User Name (User Name submitted to bank by customer)

* After waiting for a few minutes, if you have not received the SMS or the Email, please check if the mobile number and the email address written in the submitted application form are correct. In case information is correct and you still cannot receive the email or the SMS, please contact your servicing MUFG Bank office.

Slide 16

Initial Activation (PIN Settings)

Check Email → Install Application → Generate Passcode → **Activation** → Login

Lastly, enter PIN Code for opening the application and tap "Activate".

- PIN Code (set 6-digit password to open this application)
- PIN Code(Confirmation) (enter the same PIN Code again for confirmation)

Tap "Activate" to complete setup.

<Initial Activation (PIN Settings)>

Lastly, set PIN Code for opening the application. When you open the application from the 2nd time onwards, you need to enter this PIN Code.

This PIN can be changed later from the "Generate OTP" screen by tapping the "PIN" icon.

Slide 17

Initial Activation (Generate OTP Screen)

Check Email → Install Application → Generate Passcode → **Activation** → Login

COMSUITE Token Activation of OTP Token completion

This is an important message from MUFG Bank. This message is sent to the e-mail address in the e-mail.

Dear User,

Please be informed that your OTP token has been activated. It is highly recommended that you register your personal information after you receive the notification. (Personal information is required to register the information of the user.)

Please refer to the information on completion of OTP token activation at the top of this page. Please contact your servicing MUFG Bank office.

This e-mail was generated automatically. Please do not reply to this e-mail.

MUFG Bank, Ltd. (MUFG Bank) is a member of MUFG Group.

Generate OTP Screen

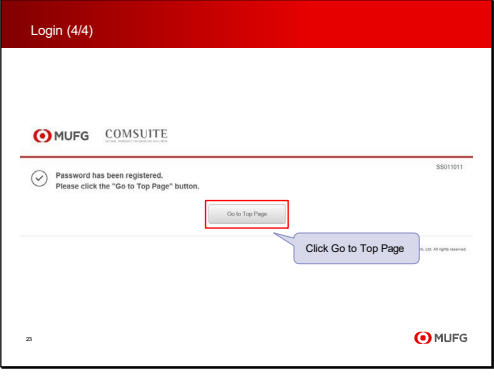

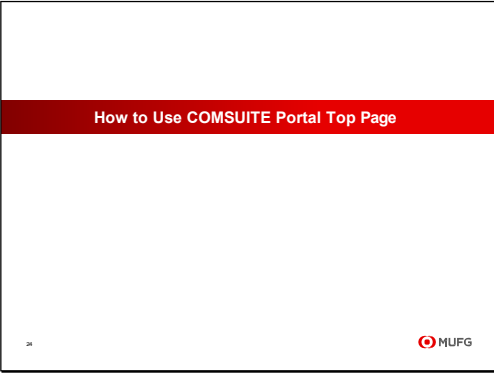

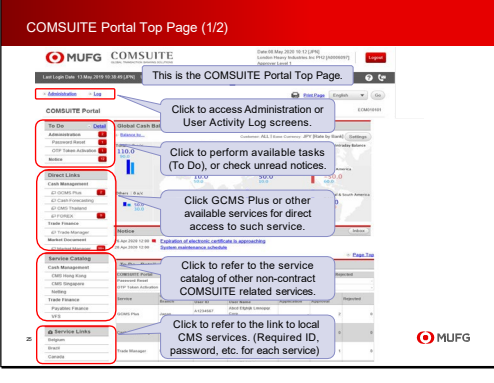

Customer can now login to COMSUITE after receiving this notification email.

<Initial Activation (Generate OTP Screen)>

After completing activation of OTP token, an Activation Completion Notice email will be sent automatically. The OTP generated can now be used to register password (decided by customer) and perform initial login.

COMSUITE Portal Login URL (For Customers who have a contract with the Seoul Branch) : https://ebusiness.bk.mufg.jp/login_korea/ <p>The URL link in 2 will not be included on the page linked under 1. Please access directly from 2 if your contracting branch is Seoul.</p> <p>On this screen, click Password Registration link. (In case it is the first-time login or login after resetting password, Password Registration is necessary.)</p> |

| | | |
|-----------------|---|--|
| | | <p>In other cases, please enter your COMSUITE Customer ID, COMSUITE User ID and Password in the corresponding fields on this screen.</p> |
| <p>Slide 21</p> |  | <p>First, confirm your Customer ID and User ID, and then enter in the Customer ID field and User ID field your login information.</p> <ul style="list-style-type: none"> - Customer using Physical OTP Token: check from the COMSUITE Letter included in the OTP Token Envelope. - Customer using Mobile OTP Token: check from the PDF attached to “OTP Token Activation Request” email and application form. <p>Second, press the “1” button from the OTP Token device. One-time password will be shown on the OTP Token device.</p> <p>Third, enter the one-time password that is shown on the device in the One Time Password (OTP) field on the screen.</p> <p>Click Next to proceed to the next screen.</p> |
| <p>Slide 22</p> |  | <p>On STEP 2: Input and Confirm screen, please set your new password and click Submit button.</p> <p>Make sure your password meet the following criteria (also referable directly on the screen).</p> <ol style="list-style-type: none"> 1. Your passwords can contain the following three types of characters. <ol style="list-style-type: none"> (i) Numbers 0 through 9 (ii) Alphabets A through Z and a through z (Note Passwords are case-sensitive) (iii) Symbols such as ! # % & ' () + - = ? _ 2. Passwords must consist of 8 to 16 characters including all the three types of characters mentioned above. |

| | | |
|-----------------|---|--|
| <p>Slide 23</p> |  | <p>When you reach this screen, it means your password has been successfully registered.</p> <p>Click “Go to Top Page” to proceed to COMSUIITE Portal.</p> |
| <p>Slide 24</p> |  | <p>In the next section, you will learn each component on the Top Page of COMSUIITE Portal and its functionality.</p> |
| <p>Slide 25</p> |  | <p><COMSUIITE Portal></p> <p>This is the Top Page of COMSUIITE Portal.</p> <p>On the left-hand side of the Top Page (COMSUIITE Portal), the following sections will be provided.</p> <ul style="list-style-type: none"> • Administration and Log • To Do • Direct Links • Service Catalog • Service Links <p>Administration and Log are quick links to corresponding screens. For example, click Administration to perform tasks such as applying for or approving OTP Token Activation, or Password Reset.</p> <p>To Do on the left-hand side of the Top Page (COMSUIITE Portal) provides a summary of your to-do</p> |

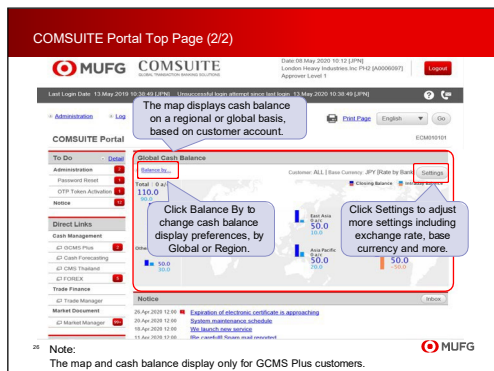

list, including Administration related To Do and Notice. Next to it, a badge is displayed if any, to provide the number of available To Do or unread Notice at a glance. For more details of your To Do, click the Detail link to automatically scroll to the To Do – Detail position on the right-hand side of the COMSUITE Portal Top Page. Direct Links are access to GCMS Plus, FOREX and other contracted services. Click the links to go to services' Top Page.

Service Catalog provides information of other services that no contract has been entered into between your company and MUFG. You may check the catalog for reference.

Service Links show the names of the countries where local Cash Management System (CMS) is available. Note that separate ID and password is required for access.

If you want to change the display language, choose from the drop-down list shown on the upper right corner of COMSUITE Portal.

Slide 26

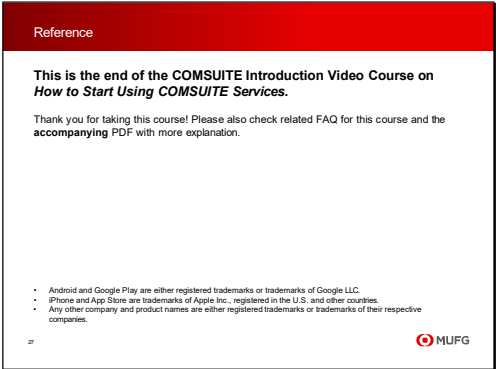

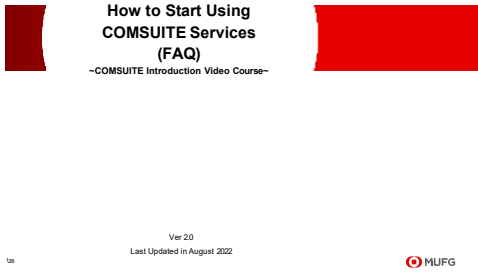

Now, let's move on to look at the right-hand side of the Top Page (COMSUITE Portal). For customers who use GCMS Plus, you will notice that Cash Balance, or the map area covers a large portion of Top Page (COMSUITE Portal). It shows the cash balance of available accounts you hold with MUFG, calculated by an exchange rate provided by the bank (by default).

<Balance By>

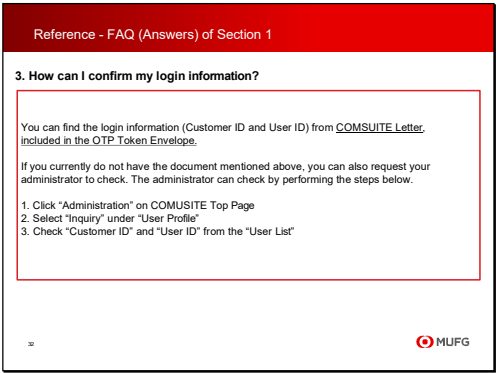

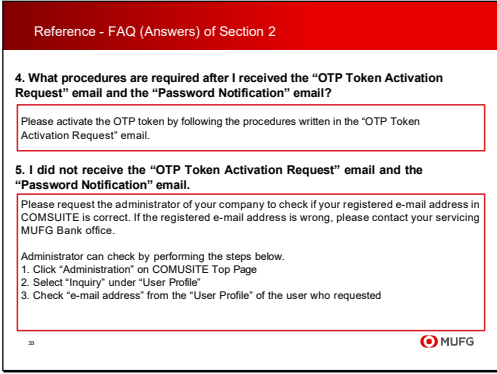

Cash Balance can be shown at Global or regional level (North America, Central & South America, EMEA, East Asia, and Asia Pacific).

In case you have one or more accounts of the same region, that region will appear as the default display.

In case you have accounts in more than one region, for example, one account in Japan and one account in

| | | |
|-----------------|---|---|
| | | <p>EMEA, then Global will become the default display. This cash balance display setting (global or regional) can be changed anytime at user level. To do that, simply click Balance by link shown on the upper left corner of the map area.</p> <p><Settings></p> <p>Go to Settings from the upper right corner of the map to change the following settings of the Cash Balance:</p> <ul style="list-style-type: none"> • Customer (choose all or individual customer to include) • Exchange Rate & Base Currency (choose Rate by Bank, the exchange rate provided by MUFG for reference purposes, or the Rate registered on GCMS Plus) • Map Preference (choose the center of the map) |
| <p>Slide 27</p> |  | |
| <p>Slide 28</p> |  | <p><FAQ></p> <p>Thank you for taking this COMSUITE Introduction Video Course on How to Start Using COMSUITE Services. After learning this course, please use the FAQ to test your understanding of the course contents. Please feel free to go back if you need to review some of topics.</p> |

Reference - FAQ (Answers) of Section 3

12. When do I have to conduct a Password Registration, and what if I lost my password?

For users who tries to log in to COMSUITE Portal for the first time (after OTP Token is activated) or after your password is reset, users need to conduct Password Registration.

Password Registration is also necessary if you lost your password and your password is reset. Follow the steps below:

1. Ask an Administrator or a user from your company to apply to reset your password via COMSUITE Portal.
2. Ask another Administrator to approve the password reset application.
3. Receive an email notification and move on to Password Registration.

13. What is COMSUITE and COMSUITE Portal?

COMSUITE or COMSUITE Service is an integrated common brand introduced for MUFG's total solutions for global transaction banking, which include global cash management, cash flow management, online foreign exchange contracts and various trade finance services etc. From COMSUITE Portal, customers can access all available services from direct links or perform administration related tasks etc.

14. How can I change the language?

After login to COMSUITE Portal, choose the language from a drop-down list in the upper right corner of the [COMSUITE Portal Top Page](#) screen.

15. What is a badge and what does it mean on COMSUITE Portal?

Badges (white number with a red background) are used to indicate new to-dos. For example,

1. **Administration badges** show the number of to-dos for OTP Token Activation etc.
2. **Notice badge** shows the number of unread information.
3. **Badge in the Direct Links** section shows the number of to-dos related to that service. Click on the service name or the badge area to proceed to the top page of that service.

16. What exchange rate is used for showing cash balance on COMSUITE Portal?

For GCMS Plus users, by default, Rate by Bank will be used to convert cash balance and display on COMSUITE Portal. You can change the settings by clicking the Settings button.

Disclaimer

- The settlement products provided herein are independent from other transactions (deposits, loans etc.)
- These products are to be considered apart from the other services of MUFG Bank, Ltd. (collectively with its various offices and affiliates, "MUFG Bank") and does not have any impact regardless of whether you enter into as a transaction or not. Neither this nor any other communication prepared by MUFG Bank is or should be construed as investment advice, a recommendation to enter into a particular transaction or pursue a particular strategy, or any statement as to the likelihood that a particular transaction or strategy will be effective in light of your business objectives or operations.
- Before entering into any particular transaction, you are advised to obtain such independent financial, legal accounting and other advice as may be appropriate under the circumstances. In any event, any decision to enter into a transaction will be yours alone, not based on information prepared or provided by MUFG Bank. MUFG Bank hereby disclaims any responsibility to you concerning the characterization or identification of terms, conditions, and legal or accounting or other issues or risks that may arise in connection with any particular transaction or business strategy.
- For utilization of transactions or services of MUFG Bank, you are to be asked to open and retain a foreign currency deposit account at MUFG Bank through the local subsidiary of your company. Please note the following points for opening the new foreign currency account.
 - In case of retaining deposit being in currency other than JPY, there is a concern that JPY equivalent amount of principal may be reduced from (may cause loss from) the JPY equivalent amount at the time of deposit due to the foreign exchange rate fluctuations.
 - For foreign currency deposits, being a product based on the local law of the applicable country for account opening, there is a possibility for a change in the receivable amount of the deposit interest or a limit in drawing amount due to change in local law, regulation, etc. The Bank could suspend to provide foreign currency deposit service for a certain period of time.
 - It depends on each country whether the foreign currency deposit is within the scope of the local deposit insurance or not. In case of Japan, in which the account is opened, deposit insurance is not applicable.
 - The treatment of tax imposed on the interest of the foreign currency deposit also depends on the country for opening accounts.
 - The applicable deposit rate or commission fee cannot be provided due to differences in country, currency, and transaction scale.
- The commission fees etc. for remittance transaction, foreign currency transaction, financing, each EB product, advisory service and so forth cannot be indicated in advance due to differences in country, foreign currency, transaction scale, service contents etc. Details of transactions and services will be provided individually after listening to the above contents.
- The contents of services and products might change without prior notice and you are requested to take note that some service or products might not be utilized due to MUFG Bank's reason or the other reasons.
- The Bank retains copyright to this report and no part of this report may be reproduced or re-distributed without the written permission of the Bank.
- Note that MUFG Bank may have issued, and may in the future issue, other reports that are inconsistent with or that reach conclusions different from the information set forth herein. The foregoing represents nothing more than our current understanding.
- The information provided herein is for general information as of the issued date and is neither aimed for indication of transaction or contract conditions nor for such action as induction into investment etc... Note that risks and appropriateness of information provided herein for your company should be based on your own judgment and responsibility of your company.
